Registration for the *Energy and Sustainability Engineering* (EaSE) Graduate Option Program

The student must first be enrolled in a *departmental graduate degree program* at the University of Illinois, Urbana-Champaign. Then, after arriving at Illinois:

1. On the EaSE website ([http://EaSE.Illinois.edu](http://EaSE.Illinois.edu)), under *Graduate Option Program*, study the *Areas of Specialization* and determine which one meets your career objectives. Also determine who is the EaSE faculty advisor in your department (names listed under *EaSE Executive Committee*).

2. Fill in this form and have your EaSE faculty advisor sign it. *Feel free to ask him/her for guidance!*

Date: __________________________________________________________________________

Name: __________________________________________________________________________

e-mail: __________________________________________________________________________

NetID and UIN: __________________ ; __________________

Phone: __________________________________________________________________________

Major department: __________________________________________________________________

Degree program (circle one): M.S.  | Ph.D.

Thesis advisor (Print): __________________________________________________________________

Expected graduation month/year: __________________________________________________________________

EaSE area of specialization:

___ Electrical Energy Conversion, Transmission, and Distribution
___ Thermal Energy Systems and Combustion Engines
___ Chemistry and Chemical and Materials Engineering
___ Nuclear Power Generation
___ Wind Energy
___ Solar Energy and Climate Change
___ Environmental Engineering for Energy Applications
___ Biomass Energy Resources
___ Geologic Energy Resources
___ Energy Markets, Reliability, Safety, and Security

Semesters in which you will enroll in ENG 471: Fall of __________ and in ENG 571: Spring of __________

Two courses within the chosen area of specialization: __________________________________________________________________

One course for breadth, chosen from a *different* area of specialization: __________________________________________________________________

NOTE: At least one of the above three courses shall be from *outside of your home department*. A cross-listing out of department does *not* qualify.

NOTE: The EaSE specialization areas are intended to be an important guide, but not to be rigid boundaries. If you wish to substitute a course that is not listed, please articulate the reasons to your EaSE faculty advisor.
